CAPABILITIES STATEMENT

ABOUT NOVUL

We help companies with IA design & control requirements. Our specialized staff ensures all systems, devices, or data centers can meet DoD & Federal (NIST/FIPS) requirements. We offer Information Assurance Engineering and RMF training, consulting, and implementation worldwide.

We employ and train experts.

Our experts can provide an end-to-end solution: build a cyber security policy and the associated documents and policies, build out and secure the environment that the policy protects, and then ensure FISMA compliance through compliance checks.

DIFFERENTIATORS

Novul Solutions employs experts that have developed methods that incorporate **OWASP**, The **CIS Critical Security Controls**, and the **NIST 800-115** technical guidance to ensure that the most up to date and effective methods are used during a penetration testing engagement.

- Our staff includes experts who hold the **CISSP, GCIH, GOSI, CySA+, Security+, Project+**.
- Our consultants hold certifications at all levels of the **DoD Directive 8570/8140**.
- Our consultants hold security clearances up to **TS/SCIFS**.
- Our team uses **NISTSP800-35 and the OMB A-130** standards.

CORE COMPETENCIES

- CyberSecurity Compliance
- IT Project Management a Cloud Computing & Security
- Network Installation
- Penetration Testing
- Network Administration
- Network Security (Firewalls)
- Security Assessment & Authorization
- Digital Forensics
- Security Awareness Training & Education
- System Auditing
- Incident Response
- Help Desk Support Services
- Risk Management Framework(RMF)
- Encrypted Communication (VPN, IPSEC)
- Cloud Solution Integration

PAST PERFORMANCE

- Subject Matter Expert for DRTS
- System, IA Validator, System Administration, Network Administration
- Risk Management
- Cyber Security
- Cloud Solutions
- System Administration
- System Integration
- Cloud Solutions
- System & Network Administration
- Virtual Environment Administration
- STIG Verification
- Validation System
- Network Administration
- IT Project Management
